**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

***In the title of the invention:***

Change the title to read as follows:

PACKAGING MACHINE

***In the specification:***

Page 2, paragraph [0005], line 7, delete "link" and insert  
--line--.

Page 12, paragraph [0050], line 6, delete "61" and insert  
--180--.

***In the claims:***

Claim 18, line 10, delete "." And insert --;--.

**EXAMINER'S AMENDMENT TO THE DRAWINGS AND COMMENT**

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

in figure 2D, the number "168" has been changed to --108--  
(see the attached marked-up copy of figure 2D).

Art Unit: 3721

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

4. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings filed 2 November 2001 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

***Election/Restrictions***

5. Claims 1 and 18 are allowable generic claims. As was stated in the election of species requirement, mailed 21 May 2003,

"Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141."

Accordingly, previously withdrawn claims 3, 7, 20 and 22, are no longer withdrawn from consideration since all of the claims depend from or otherwise include each of the limitations of an allowed generic claim. Claims 3, 7, 20 and 22 have been considered and examined.

#### REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance: the examiner has reviewed appellant's brief and the arguments contained therein; additionally, the examiner has reviewed the prior art. It is the opinion of the examiner that the subject matter of claims 1-11, 13-26 and 28-32 is not anticipated in the manner required by 35 USC 102 or unpatentable in the manner require by 35 USC 103. In particular, the combination of elements set forth in independent claim 1, especially the elements:

a movable conveyor that is positioned to deliver the product to each of said plurality of lanes, said movable conveyor extends under one of said plurality of lanes;

a conveyor shifting assembly that is adapted to move said movable conveyor from one of said plurality of lanes to an adjacent one of said plurality of lanes"

and the combination of elements set forth in independent claim 18, especially the elements:

"a moveable conveyor that is positioned to deliver the product to each of said plurality of lanes, said movable conveyor extends under one of said plurality of lanes;

a conveyor shifting assembly, said conveyor shifting assembly that is adapted to move said movable conveyor from one of said plurality of lanes to an adjacent one of said plurality of lanes"

are not found in the prior art. The prior art references, particularly the Walter and Greenwell patents, do not disclose the above mentioned claimed subject matter. The conveyor in

Art Unit: 3721

Walter extends under all of the lanes and the movable conveyor in Greenwell extends above the "lanes". Likewise, there is no reason to modify the Walter conveyor so that it maybe shifted. There is not found to be any motivation to modify the Walter conveyor in the manner necessary to meet the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
